

# MOH. DWI AFANDI

## Mobile Developer

Kediri, East Java, Indonesia | +62 857-0872-6068 | [fandigit7@gmail.com](mailto:fandigit7@gmail.com)

Portfolio: <https://fandi-portofolio.web.app/>

### SUMMARY

---

Enthusiastic Flutter developer with hands-on experience building scalable, cross-platform mobile applications. Skilled in integrating Firebase services, implementing clean architecture, and creating user-friendly interfaces. Adept at collaborating with designers and backend teams to deliver innovative solutions and enhance app performance.

### EXPERIENCE

---

#### PT. BALI PROJECT INDONESIA – Ambarawa, Semarang, Indonesia

*Flutter Developer Intern* (July 2025 – October 2025)

- Developed **OpenJob**, a mobile job search application built with Flutter.
- Implemented **BLoC state management** to ensure clean separation of concerns and scalable architecture.
- Integrated **Firebase services** including **Cloud Messaging (FCM)** for push notifications.
- Implemented **Deep Links** to improve user navigation and enhance engagement from external links.
- Collaborated with design and backend teams to seamlessly integrate UI/UX designs with API endpoints.
- Participated in code reviews and debugging sessions to improve code quality and resolve defects.

#### PT. ORDO TEKNOLOGI KARYA – Surabaya, Indonesia

*Mobile Developer Intern* (July 2024 – November 2024)

- Developed and maintained mobile applications using Flutter.
- Collaborated with design and backend teams to seamlessly integrate UI/UX designs with API endpoints.
- Utilized state management solutions (BLoC, GetX) to ensure efficient application performance.
- Implemented clean architecture principles to enhance code maintainability and scalability.
- Integrated Firebase services—including Authentication, Firestore, Cloud Storage, and Push Notifications—to boost app functionality.
- Participated in code reviews and debugging sessions to improve code quality and resolve defects.

### EXPERIENCE

---

#### OpenJob – Job Search Application (2025)

- Built a **job search mobile application** from scratch using Flutter.
- Integrated **Firebase Authentication, Cloud Firestore, Cloud Messaging (FCM), Deep Links, and Real Time Chat**.
- Implemented **BLoC architecture** for scalable and maintainable state management.
- Designed and developed intuitive **UI/UX** following Material Design guidelines.
- Deployed and tested across multiple Android devices for performance and stability.

## EDUCATION

---

**SMKN 1 Kediri – Kediri, East Java, Indonesia**

High School Diploma, Computer Network and Telecommunications (2025)

## TECHNICAL SKILLS

---

- **Programming & Frameworks:** Flutter (Dart), Python, Golang
- **Mobile Development:** Cross-Platform UI/UX, RESTful API Integration, JSON, Clean Architecture
- **State Management:** BLoC, GetX
- **Tools & Services:** Firebase (Authentication, Firestore, Cloud Storage, Cloud Messaging), Git, GitHub, Gitlab, Visual Studio Code
